

**CLUBHOUSE COMMITTEE NOTES**  
**BELLAVITA HOMEOWNER'S ASSOCIATION**  
**Tuesday, October 14, 2014**

Members Present: Lloyd Lambert, Marjie Parham, John Rodriquez, and Sandra Talley

Absent: Karen Bishop, Mike Sanders, Nancy Triggs and Don Velasquez

- *Purchase of a stair stepper* - The committee recommended not to purchase a new stair stepper exercise machine. The existing elliptical stepper does almost the same function without the impact to the joints. Plus, there is no space to add an additional exercise machine; because space is needed for the use of a bench, exercise balls and dumbbells.
- *Relocation of the computer room* - The committee recommended not to move the computer room due to the expensive cost for the electrical and security requirements.
- *New defibrillator for the Ballroom* - The committee recommended that a new defibrillator be purchased for the Ballroom. Also, a new battery is needed for the existing defibrillator in the fitness. It was recommended that the defibrillators be kept unlocked and available for use at all times.
- Homeowner concern forms - No concerns were presented this month.
