

It will be a busy week on W. Marsala! Fence replacement begins this week. The Contractor, Wesley Marsh, Hurricane Fence Company, visited homes last week and recorded information on gates and types of fences to be replaced. Construction on W. Marsala will continue this week and next. One crew will be working this week; it is likely two crews will be working the following week. (NOTE: Homes that backup to VillaVerde will not receive any fences—front, side or back until BVHOA and VVHOA resolve the funding issue.) After W. Marsala work will continue along N. Marsala and E. Marsala and following that will continue to other parts of Section 1. Details will follow when the Contractor releases more information. Remember construction crews will need clearance of 1' between your bushes etc. and your fence, including outside your FRONT fence. Remove everything from your fence and provide animal control for the safety of workers, inspectors and pets.

The Fence Post will provide will provide weekly progress reports. Also, next time you visit the Clubhouse check the bulletin board. Nancy, our Clubhouse Manager, has developed a color-coded map of BV with expected start dates for the next 2 weeks. Talk to your neighbors, help them get prepared.

Remember:

- If you are interested in upgrading your existing 6' wood gate and 6' FRONT wood fence, or your gate only, sign up at the Clubhouse by Saturday, May 31.
- If your property backs up to the Nature Reserve and you want a 4' metal gate in the backyard, sign up at the Clubhouse (on a different sheet) by Sunday, June 15.
